

ARRIVEDERCI A GRENOBLE

20 NOVEMBRE 2008

**YOU'RE INVITED to the unveiling of ECM'S NEW ICBP LINE FURNACE:
A low pressure carburizing solution with an outstanding productivity for medium to large capacity.**

Sixteen years ago, ECM began production of the first modular, low pressure carburizing installation for gear box manufacturing. This innovative idea to offer flexibility in production capacity with a qualitative thermo-chemical process has convinced many users of its success: There are more than 650 ECM heating cells in production worldwide today.

Since then, ECM's R&D department has been working to further answer our customers' productivity need for low pressure carburizing with gas quench, thus, the ICBP LINE furnace was born.

We are excited to announce the ICBP LINE Product Launch on Thursday, November 20th, 2008— and we would be pleased if you could join us.

In addition to the ICBP LINE Furnace Prototype introduction at our testing platform, we will provide technical presentations plus a tour of ECM's Workshop. You will see ICBP modular and vacuum furnace installations in manufacturing stages and more. Lunch and Dinner will also be provided by ECM.

We hope to welcome you in Grenoble on November 20th for this exciting event.

Please R.S.V.P. using the enclosed instructions or contact us for further details.

Sincerely,
All of us at ECM

Morning

- 8:30-9:00 Welcome of the participants
9:00-9:30 Welcome message: Gilles Roland, CEO
Presentation of the agenda of the day
9:30-10:15 Introduction to the ICBP LINE
10:15-10:30 Coffee break and move into ECM workshop
10:30-11:00 ICBP LINE Opening Ceremony
11:00-12:30 Visit of the ECM workshop and presentation of several equipments being manufactured
12:30-14:00 Lunch

Afternoon

- 14:00-15:30 ICBP LINE Technical presentations:
• Design
• Process
• Maintenance
15:30-15:45 Coffee break
15:45-17:15 Low Pressure Carburizing associated with Gas Quenching : latest ECM developments
• Process : mechanical properties improvement
• ICBP : latest technical evolutions

- 17:15-18:00 Back to the ICBP Line for demonstration and open questions
18:00 Closing message

Evening

- 19:00~ Banquet in traditional French restaurant
